Work-Life Interface Toyin Ajibade Adisa 2021 In todays globalised world economy, it is becoming increasingly pressing to shine a light on the interface of work and private life. In order to fully understand the issue we must take an inclusive view and not limit our understanding to Western

perspectives. This contributed volume encompasses research and perspectives from the global south, including Sub-Saharan Africa, Asia and South America. In doing so, this collection fills a gap in existing literature to give a broader view of the topic. Divided by geographic territory into three sections, the book combines original research, case studies and interviews as well as comparative studies. Chapters cover a wide range of emerging issues including gender and work-life balance; the role of culture; men and household work and work and family balance, to name a few. Crucially, the book offers critical perspectives and understanding of work-life interface/balance/conflict as a collection of conceptual, theoretical, and empirical studies that draws on qualitative and mixed methodologies. Bringing a unique contribution to the field, this book is a useful resource for students, academics, managers and policy makers. Toyin Ajibade Adisa is Senior Lecturer in HRM and Organisational Behaviour at the University of East London, UK. Currently, he is a course leader for HRM undergraduate course at UEL. His research interest covers areas of flexible working practices and gender equality. Toyin has published in high-impact academic journals. Gbolahan Gbadamosi is Associate Professor Organisational Behaviour and HRM, Bournemouth University Business School, UK. He has over 100 academic publications, most in scholarly academic journals. Gbola at different times has been affiliated with 6 universities in 5 countries. He has completed several Ph.D. supervisions and about 20 doctoral examinations.

Where Big Babies Live Michael Bent 2020-09-18 In a city somewhere exists a gated community for the very unique - a place where 'special' babies live, breathe, go to school, learn and escape the pressures of their unique identity. A community for those whose baby needs will not be hidden

nor dismissed. Adults, teenagers and children - all babies on the inside - have special needs and are not accepted by the community at large. Learning to be a baby in an adult world is hard and for many, impossible. Some don't make it through, but there is a place for the few where the baby inside can also be the baby outside and the adult life that must invariably be ultimately traversed, becomes easier after time spent... Where Big Babies Live Sanctuary for the babies in so many of us is here. Now. Come and read about four young people and their parents and how they came to a place of safety and adventure... in diapers.

Tales from the Mom Front Rebecca Martorella 2006-03 Tales from the Mom Front offers an insightful and engaging look at the early years of parenthood from the perspective of a first-time mother. Author and family therapist Rebecca Martorella chronicles her journey from pregnancy to preschool with a dose of realism and wit that reads like a conversation with a good friend. Unlike advice books that outline what to expect from parenthood, Martorella shares the unexpected moments that have parents everywhere wondering, "is it just me?" Stories include: Building Baby Furniture-The First Parenting

Challenge Breasts, Bottles, How Do You Work These Things?! Family Vacation is an Oxymoron First Date with the Babysitter Eek! Daddy's in Charge! and more. She reveals her mistakes and victories and encourages parents to trust their instincts, laugh at their blunders, and release themselves from the pressure to be a "perfect" parent. Tales from the Mom Front began as a newspaper column that earned praise from new and experienced parents and grandparents alike. As the Beacon Turns J. M. Coutts 2005 A wonderful, nearly true tale of Emergency Medical Services in the private ambulance sector, beginning in 1975. Filled with real emergencies, antics of comic relief and the story of a young girl who survived it all. A sassy but sweet twist that gives a new perspective of the EMS profession.

Coming of Age in the Holocaust Mary J. Gallant 2002 This study is based on in-depth interviews with 18 American and Canadian Holocaust survivors who were born in various European countries, including Luxembourg. Ten of the interviewees were children or adolescents under the age of 16 during the war; the others were aged 16-21. Some of them survived Nazi camps (Auschwitz, Mauthausen, Plaszow, etc.), one survived Theresienstadt, one fought with Soviet partisans in Lithuania, and some survived in hiding or in exile. Analyzes their accounts as narratives of surviving persecution and terror in the context of growing up. Proposes a "challenged identity model" as a socio-psychological model able to account for their survival. This model suggests, inter alia, that personal characteristics of the individual were a factor in the survival of trauma associated with persecution, captivity, and abuse. Surmises that the transcendence

processes in which survivors engaged during their ordeals were an intrinsic part of their ability to successfully construct new lives afterward.

Dream Sequence J.J. DiBenedetto 2015-01-20 Sara Barnes thought her life was perfectly ordinary – until the night she began stepping into other people’s dreams. Follow Sara as she learns to cope with this extraordinary gift (or curse) in the first three books of the Dream Doctor Mysteries: DREAM STUDENT It’s bad enough that, thanks to her supernatural talent, Sara is learning more than she ever needed to know about her friends and classmates, watching their most secret fantasies whether she wants to or not. Much worse are the other dreams, the ones she sees nearly every night, featuring a strange, terrifying man who commits unspeakable crimes. Now Sara wonders if she’s the only witness to a serial killer – and the only one who knows when and where he’s going to strike next. DREAM DOCTOR Medical school and life as a newlywed would be enough by themselves for anybody to handle. But Sara’s got another problem – her dreams have started up again. Almost everyone at the medical school is dreaming about the death of the school’s least popular teacher, Dr. Morris, and once again, Sara finds herself in the role of unwilling witness to a murder before it happens. But this time, there are too many suspects to count, and it doesn’t help matters that she hates Dr. Morris every bit as much as any of his would-be murderers do. DREAM CHILD Sara thought she had made peace with her dreaming talent, but she’s got a surprise coming: her four-year-old daughter has inherited it, too. Unraveling a mystery with lives on the line is difficult enough under the best of circumstances. But when Sara has to view all the evidence through the eyes – and dreams - of a toddler, it may be an impossible task.

By Love Reclaimed Adrian Finkelstein 2012-07-09 In July

1932, MGM producer and notorious nice guy Paul Bern marries the love of his life, screen icon Jean Harlow. Two months later, he is found shot to death in their Benedict Canyon home, the victim of a Hollywood cover-up that eventually portrays him in the media as a sick, impotent wife-beater. Though I Walked Through the Valley Elaine Walker 2022-08-01

Yea, though I walk through the valley of the shadow of death, I will fear no evil; For you are with me; Your rod and Your staff, they comfort me. ""Psalms 23:4, NKJV

Have you ever been so close to death that you could see the face of Jesus? Have you ever been so sick that you were afraid that you were going to die? Have you ever felt so overwhelmed by illness that you could not function in your day-to-day activities? Are you tired of the devil robbing you of the life that God wants for you? I want my readers to know that even in the most difficult storms of life, we can be overcomers! When you are facing the most difficult times you have ever faced, know that God is near to you. He will comfort you. The Holy

Spirit will intercede for you. Our faith, hope, and trust in God prevails, and He is always with us. The miracles that come about during these storms are so overwhelming! God is constantly working even though we can't see what is happening. We may look at the circumstances and feel like the outcome is going to be negative. God proves that if we keep our faith and trust in Him and what He says that He will work all things for our good. Things do not always happen in our imperfect time, but God's timing is perfect, and we have to trust in that even when we have lost our ability to be patient. In my own personal battle with my health during most of 2016, all of the things that I was hearing from doctors and witnessing as symptoms in my own body were telling me that I was going to die. God heard my prayers and honored my desire to keep on living. My prayerful desire is that the stories that my family and I will share with you through this book will give you a greater understanding of how loving and faithful our God is. Come take a walk with me and my family.

Re-Imaging Japanese Women Anne E. Imamura 1996-07-31

Re-Imaging Japanese Women takes a revealing look at women whose voices have only recently begun to be heard in Japanese society: politicians, practitioners of traditional arts, writers, radicals, wives, mothers, bar hostesses, department store and blue-collar workers. This unique collection of essays gives a broad, interdisciplinary view of contemporary Japanese women while challenging readers to see the development of Japanese women's lives against the backdrop of domestic and global change. These essays provide a "second generation" analysis of roles, issues and social change. The collection brings up to date the work begun in Gail Lee Bernstein's Recreating Japanese Women, 1600-1945 (California, 1991), exploring disparities between the current range of images of Japanese women and the

reality behind the choices women make.

Systemic Crises of Global Climate Change Phoebe Godfrey 2016-04-14 Sociological literature tends to view the social categories of race, class and gender as distinct and has avoided discussing how multiple intersections inform and contribute to experiences of injustice and inequity. This limited focus is clearly inadequate. Systemic Crises of Global Climate Change is an edited volume of 49 international, interdisciplinary contributions addressing global climate change (GCC) by intentionally engaging with the issues of race, gender, and class through an intersectional lens. The

volume challenges and inspires readers to foster new theoretical and practical linkages and think beyond the traditional, and oftentimes reductionist, environmental science frame by examining issues within their turbulent political, cultural, and personal landscapes. Varied media and writing styles invite students and educators to reflexively engage different, yet complementary, approaches to GCC analysis and interpretation, mirroring the disparate voices and viewpoints within the field. The second volume, *Emergent Possibilities for Sustainability* will take a similar approach but will examine the possibilities for solutions, as in the quest for global sustainability. This book is a valuable resource for academics, researchers and both undergraduate and post-graduate students in the areas of Environmental Studies, Climate Change, Gender Studies and International studies as well as those seeking a more intersectional analysis of GCC.

Your Baby, Your Way Jennifer Margulis 2013-04-16 Why, despite our state-of-the-art medical technology, does the United States have among the highest maternal and infant mortality rates in the industrialized world? Why do pregnant women who are planning to breastfeed receive "free" samples of infant formula from American obstetricians? Why are American newborns given a vaccine at birth against hepatitis B, a sexually transmitted disease? *The Business of Baby*, an eye-opening work of investigative journalism, exposes how our current cultural practices during pregnancy, childbirth, and the first year of a baby's life are not based on the best evidence or the most modern science, revealing how American moms and their babies are being undermined by corporate interests. An illuminating combination of meticulous research and in-depth interviews with parents, doctors, midwives, nurses, health care administrators, and scientists, Margulis's impassioned and eloquent critique is shocking, groundbreaking, and revelatory. *The Business of Baby* arms parents with the information they need to make informed decisions about their own health and the health of their infants.

Of War and Men Ralph LaRossa 2011-06-01 Fathers in the fifties tend to be portrayed as wise and genial pipe-smokers or distant, emotionless patriarchs. This common but limited stereotype obscures the remarkable diversity of their experiences and those of their children. To uncover the real story of fatherhood during this transformative era, Ralph LaRossa takes the long view—from the attack on Pearl Harbor up to the election of John F. Kennedy—revealing the

myriad ways that World War II and its aftermath shaped men. Offering compelling accounts of people both ordinary and extraordinary, *Of War and Men* digs deep into the terrain of fatherhood. LaRossa explores the nature and aftereffects of combat, the culture of fear during the Cold War, the ways that fear altered the lives of racial and sexual minorities, and how the civil rights movement affected families both black and white. Overturning some calcified myths, LaRossa also analyzes the impact of suburbanization on fathers and their kids, discovering that living in the suburbs often strengthened their bond. And finally, looking beyond the idealized dad enshrined in TV sitcoms, *Of War and Men* explores the brutal side of family life in the postwar years. LaRossa's richly researched book dismantles stereotypes while offering up a fascinating and incisive chronicle of fatherhood in all its complexity.

BMom Crissy Shreve 2014-02 Rich and real, BMom is one woman's mosaic of love, life and loss, and of being found among the pieces. No one piece is a whole, yet all are precious, together a masterpiece, and each a gem. It's God restoring the shattered pieces of my life and my soul. His fingerprints are all over it. The reader will laugh and the reader will cry, and in that, we will become friends. BMom begins with my relinquishing my infant son into the hands of

parents I couldn't know. It moves through the intervening years until he found me, on to our reunion, and beyond. Not only was I reunited with my son, I was reunited with myself. Interspersed are various interludes that speak of lessons learned, feelings finally understood and felt, and poetry written as part of my journey. BMom is entertaining and engaging, while occasionally making a point, to be taken or not, as the reader chooses. BMom is, above all else, a good read.

When Husbands and Wives Become Parent and Child - North American Diaper Edition Maggie Joyce 2022-05-10

Maggie Joyce, author of 'The Fulltime, Permanent, Adult Infant' writes of relationships where the adult relationship is partly or significantly replaced by a parent/child one. That 'child' could be an older preschooler or a toddler or even a baby right down to almost newborn. For most adult babies, their regression is limited and more under control, but for some, it is so significant and long-lasting that it creates a permanent change in the relationship paradigm. This book has case studies on other couples that have embraced - willingly or not - varying aspects of the parent/child relationship. She then gives some clues and advice on taking some of the angst out of relationships where one is an adult baby and the other is struggling to handle it.

during a Carnival celebration in their beloved city of Lisbon, beginning a passionate and challenging journey together that will span two countries and two political revolutions. Told through Tiago and Marta's eyes, *Cycles* explores how lives, families and careers changed, for the worse and for the better, as Portugal fought to find democracy in the early 1970s in the wake of the Carnation Revolution, a turbulent military coup d'état. When the couple eventually fulfills Tiago's dream of immigrating to Canada, they experience a new form of political unrest as they settle in Montreal during the Quebec Referendum. Together they must struggle to redefine themselves as they learn a new language, make friends and try to succeed and get ahead in their new country. This thoughtful, compelling novel takes on universal themes and offers an insightful take on the complexities of politics, family, marriage, and women in the workplace. Most of all, it illustrates how love, in all its forms, can endure in the face of hardship.

If you want to help improve the understanding of ABDL within your relationship, this is the perfect first step. It is short enough and simple enough to not intimidate someone who wants to understand.
