International Criminal Law Roger O'Keefe 2015 'International Criminal Law' presents a full and systematic overview of the field, placing it in the context of wider international law. It offers a high-level, analytical examination with particular reference to the concept of an international crime and the role of

domestic courts in prosecuting international crimes.--
The Law of Non-International Armed Conflict Sandesh Sivakumaran 2012-08-09 Non-international armed conflicts now far outnumber international ones, but the protection afforded by international law to combatants and civilian is not always clear. This book will set out the legal rules and state practice applicable to internal armed conflicts, drawing on armed conflicts from the US civil war to present day.

Man's Inhumanity to Man Antonio Cassese 2003-01-01 Of Yugoslavia in 1999).

Realizing Utopia Antonio Cassese 2012-03-08

Bringing together 47 essays by prominent international lawyers, this book reflects on major challenges facing international law and focuses on potential changes and improvements. Its aim is helping to construct a better architecture of world society. As international law's importance continues to grow, this book analyses where it is heading.

International Law Antonio Cassese 2005 Previous edition, 1st, published in 2001.

Principles of International Criminal Law Gerhard Werle 2014 Principles of International Criminal Law has become one of the most influential textbooks in the field of international criminal justice. It offers a systematic and comprehensive analysis of the foundations and general principles of substantive international criminal law, including thorough discussion of its core crimes. It provides a detailed

understanding of the general principles, sources, and evolution of international criminal law, demonstrating how it has developed, and how its application has changed. After establishing the general principles, the book assesses the four key international crimes as defined by the statute of the International Criminal Court: genocide, crimes against humanity, war crimes, and the crime of aggression. This new edition revises and updates work with developments in international criminal justice since 2009. It includes new material on the principle of culpability as one of the fundamental principles of international criminal law, the notion of terrorism as a crime under international law, the concept of direct participation in hostilities, the problem of so-called unlawful combatants, and the issue of targeted killings. The book retains its highly-acclaimed systematic approach and consistent methodology, making the book essential reading for both students and scholars of international criminal law, as well as for practitioners and judges working in the field.

Cassese's International Criminal Law Antonio Cassese
2013-01-31 The third edition of International Criminal Law expounds the general principles governing international crimes as well as the fundamentals of both substantive and procedural international criminal law, bringing the political and human contexts to the fore.

International Law for International Relations Basak Cali
2010 This text provides students with comprehensive

coverage that maps out the different ways to approach the study of international law. It explains the institutions and main sources of international law-making and identifies the key topics.

The Oxford Handbook of the History of International Law Bardo Fassbender 2012-11-01 The Oxford Handbook of the History of International Law provides an authoritative and original overview of the origins, concepts, and core issues of international law. The first comprehensive Handbook on the history of international law, it is a truly unique contribution to the literature of international law and relations. Pursuing both a global and an interdisciplinary approach, the Handbook brings together some sixty eminent scholars of international law, legal history, and global history from all parts of the world. Covering international legal developments from the 15th century until the end of World War II, the Handbook consists of over sixty individual chapters which are arranged in six parts. The book opens with an analysis of the principal actors in the history of international law, namely states, peoples and nations, international organisations and courts, and civil society actors. Part Two is devoted to a number of key themes of the history of international law, such as peace and war, the sovereignty of states, hegemony, religion, and the protection of the individual person. Part Three addresses the history of international law in the different regions of the world (Africa and Arabia, Asia, the Americas and the

Caribbean, Europe), as well as 'encounters' between non-European legal cultures (like those of China, Japan, and India) and Europe which had a lasting impact on the body of international law. Part Four examines certain forms of 'interaction or imposition' in international law, such as diplomacy (as an example of interaction) or colonization and domination (as an example of imposition of law). The classical juxtaposition of the civilized and the uncivilized is also critically studied. Part Five is concerned with problems of the method and theory of history writing in international law, for instance the periodisation of international law, or Eurocentrism in the traditional historiography of international law. The Handbook concludes with a Part Six, entitled "People in Portrait", which explores the life and work of twenty prominent scholars and thinkers of international law, ranging from Muhammad al-Shaybani to Sir Hersch Lauterpacht. The Handbook will be an invaluable resource for students and scholars of international law. It provides historians with new perspectives on international law, and increases the historical and cultural awareness of scholars of international law. It is the standard reference work for the global history of international law.

International Criminal Law: Cases and Commentary

Antonio Cassese 2011-02-24 International Criminal Law: Cases and Commentary presents a comprehensive, pragmatic explanation of the

development of substantive international criminal law through key illustrative cases from domestic and international jurisdictions. Presents concise and stimulating commentaries by the leading academics in the field.

The New Humanitarian Law of Armed Conflict Antonio Cassese 1979

International Criminal Law Antonio Cassese 2015
Critical Concepts in Law, addresses the acute need for an authoritative reference work that traces the evolution of the emerging discipline of international criminal law. The editors aver that now is the time to take stock and make some sense of the subject's dauntingly vast literature, to identify a canon, and to engage with its key concepts. This four-volume collection assembles the best scholarship from the time of Nuremberg and Tokyo to the present day.

Five Masters of International Law Antonio Cassese
2011-03-15 This book consists of interviews with five distinguished international lawyers from the UK, USA, Uruguay and France, conducted by the editor, Antonio Cassese, between 1993 and 1995. Each interview is preceded by a brief 'intellectual portrait' of the interviewee. In his general introduction Cassese stresses that the interviews, all based on the same questionnaire, were intended to bring out not only the main ideas associated with each scholar in the fields of international law and international relations, but also his intellectual and philosophical background, his

general outlook and his views of the prospects for the evolution of the international community. In his final essay, Cassese brings together the main threads of the interviews and points to the parallels and divergences appearing from them. This book offers a unique and important insight into the legal minds and outlook of a select group of prominent scholars of international law and legal institutions during the last years of the twentieth century.

The Oxford Companion to International Criminal Justice

Antonio Cassese 2009 'The Oxford Companion to International Criminal Justice' is the first major reference work to provide a complete overview of international criminal law. It offers a comprehensive survey of the issues surrounding international humanitarian law and human rights through a range of entries by the leading minds in the area.

International Law in a Divided World Antonio Cassese 1986 A general introduction to international law in its political and historical context, this work identifies the ideological motivations behind legal rules and institutions. Covering several issues seldom explored by other commentators, such as the historical evolution of the international community and the fundamental principles governing international laws of economic interaction, the book provides an informative introduction to the complexities of this topic.

Surrendering to International Criminal Courts:

Contemporary Practice and Procedures Geert-Jan

Knoops 2021-10-01

An Introduction to International Criminal Law and Procedure Robert Cryer 2010-05-27 This market-leading textbook gives an authoritative account of international criminal law, and focuses on what the student needs to know - the crimes that are dealt with by international courts and tribunals as well as the procedures that police the investigation and prosecution of those crimes. The reader is guided through controversies with an accessible, yet sophisticated approach by the author team of four international lawyers, with experience both of teaching the subject, and as negotiators at the foundation of the International Criminal Court and the Rome conference. It is an invaluable introduction for all students of international criminal law and international relations, and now covers developments in the ICC, victims' rights, and alternatives to international criminal justice, as well as including extended coverage of terrorism. Short, well chosen excerpts allow students to familiarise themselves with primary material from a wide range of sources. An extensive package of online resources is also available.

Cassese's International Law Paola Gaeta 2020-08

Cassese's International Law is a new edition of an established classic. Authors Gaeta, Villalón, and Zappalà have built on the legacy of international law luminary Antonio Cassese to offer a thought-provoking and lucid account for today's undergraduates and

postgraduates. The authors have refreshed Cassese's original approach, ensuring the book continues to compare the traditional legal position with the developing and evolving law. Advancing areas such as the law of the sea, territorial matters, and international environmental law have been expanded to give proper place to their evolving development, while brand new chapters on international trade and foreign investment have been written to reflect the advancements of these areas. In maintaining the broad structure and approach but providing new material, the authors bring fresh context to Cassese's thinking and provide students with an up-to-date, compelling account of the landscape of international legal thinking.

The Defence of Mistake of Law in International Criminal Law Antonio Coco 2022-07-21 The adage 'ignorance of the law is no excuse' is significantly inaccurate. Ignorance and mistake of law do, under certain circumstances, exclude responsibility both in national and international criminal law. This monograph updates the existing reviews of law and practice on the topic, aiming to go a step further: it takes the analysis of mistake of law as a starting point for systematic observations about international criminal law in general. First, the volume defines the contours of the defence of mistake of law in general theory of criminal law, distinguishing it from cognate defences and highlighting, most notably, its connection with superior orders. Secondly, it gives an overview of the

possible approaches to the defence, offering examples from national law as terms of reference for the subsequent analysis of international criminal law. Thirdly, it surveys the relevant law and practice of international criminal tribunals, with a focus on the International Criminal Court, and it contemplates offences for which a defence of mistake of law may potentially succeed. Finally, the author tries to interpret what the rules on mistake of law applicable before international criminal tribunals imply about the purpose of punishing individuals and to the legitimacy of such punishment. Whilst the discourse on international criminal law is more and more concerned with global politics, *The Defence of Mistake of Law in International Criminal Law* brings back the focus on the appropriateness of imposing a guilty verdict on the individual defendant, a human being constituting the basic unit of each society.

Self-Determination of Peoples Antonio Cassese 1995

The self-determination of peoples is a major issue in the world community: both radical and subversive, it serves to grant statehood to oppressed peoples, but also to disrupt existing State structures. This book, the first comprehensive legal account, sets out to trace how this political ideal has turned into an international legal standard. Scrutinising State practice through national digests and UN proceedings the author pinpoints the limits within which this political postulate has gained a foothold in the body of international law

and assesses the extent to which it has had an impact on existing legal norms. This is primarily a legal inquiry which, however, looks at law within its historical and political context and, given its judicial underpinning, makes an important contribution to the study of the interplay of law, history, and politics in international relations.

Looking to the Future Mahnoush H. Arsanjani 2010-10-25 Throughout his career, Michael Reisman emphasized law's function in shaping the future. In this wide-ranging collection of essays, major thinkers in the international legal field address the goals of the twenty-first century and how international law can address the needs of the world community.

The Palestine Question in International Law Victor Kattan 2008 The question of Palestine has been a pivotal one for international law ever since the foundation of the UN in 1945. It remains so today. On July 9, 2004, the International Court of Justice (ICJ) gave its advisory opinion on the Legal Consequences of the Construction of a Wall in Occupied Palestinian Territory. It ruled on some major international law questions concerning the applicability of the Geneva Civilians Convention of 1949 to prolonged occupations, as well as human rights law more generally. It confirmed the illegality of the Israeli civilian settlements established on occupied Palestinian territory and affirmed the continuing relevancy of the right of the Palestinian people to self-determination,

which it considered an obligation erga omnes. The ICJ did not, however, rule on many of the international law questions pertaining to Final Status Issues which still need to be negotiated between the Israeli and Palestinian leadership if peace is to ever be accomplished in the Holy Land. In this series of essays, some of the most important questions relating to the Israel-Palestine conflict are addressed and reproduced in one complete volume, coinciding with the 60th anniversary of the creation of Israel and the demise of the British mandate of Palestine.

Cassese's International Law Paola Gaeta 2020 This text provides an authoritative account of international law. It preserves and extends Antonio Cassese's exceptional combination of a historically informed, conceptually strong, and practice-infused analysis of international law, comparing the treatment of most issues in classical international law with the main subsequent developments of this constantly evolving field.

State Interest and the Sources of International Law

Markus P. Beham 2018-05-11 This book addresses the disparity between positive non-treaty law and its scholarly assessment in the area of moral concepts, understood as altruistic as opposed to reciprocal legal obligations. It shows how scholars are generously willing to assert the existence of a rule of international law, thereby moving further away from actual state practice, not taking into account the factors of legal

rhetoric and the core survival interests of the state in the formation of custom and general principles of law. The main argument is that such moral concepts can simply not manifest themselves as non-treaty sources of international law from a dogmatic perspective. The reason is the inherent connection between the formation of the non-treaty sources of international law and state interest that makes it difficult, if not impossible, to assess state practice or *opinio juris* in the case of altruistic obligations. The book further demonstrates this finding by looking at two cases in point: Human rights and humanitarian exceptions to the prohibition of force. As opposed to the majority of existing works on the subject, *State Interest and the Sources of International Law* takes a bigger-picture approach to a number of distinct problems in international law scholarship by looking at the building blocks of international relations on the one hand, and merging this with sources doctrine on the other. It will be of interest to researchers, academics, and students in the fields of international law, human rights, international relations, political science, legal philosophy, and legal theory.

International Crimes of State Joseph H. Weiler 1989-01-01

State Sovereignty and International Criminal Law
Morten Bergsmo 2012-11-19 'State sovereignty' is often referred to as an obstacle to criminal justice for core international crimes by members of the

international criminal justice movement. The exercise of State sovereignty is seen as a shield against effective implementation of such crimes. But it is sovereign States that create and become parties to international criminal law treaties and jurisdictions. They are the principal enforcers of criminal responsibility for international crimes, as reaffirmed by the complementarity principle on which the International Criminal Court (ICC) is based. Criminal justice for atrocities depends entirely on the ability of States to act. This volume revisits the relationship between State sovereignty and international criminal law along three main lines of inquiry. First, it considers the immunity of State officials from the exercise of foreign or international criminal jurisdiction. Secondly, with the closing down of the ad hoc international criminal tribunals, attention shifts to the exercise of national jurisdiction over core international crimes, making the scope of universal jurisdiction more relevant to perceptions of State sovereignty. Thirdly, could the amendments to the ICC Statute on the crime of aggression exacerbate tensions between the interests of State sovereignty and accountability? The book contains contributions by prominent international lawyers including Professor Christian Tomuschat, Judge Erkki Kourula, Judge LIU Daqun, Ambassador WANG Houli, Dr. ZHOU Lulu, Professor Claus Kre, Professor MA Chengyuan, Professor JIA Bingbing,

Professor ZHU Lijiang and Mr. GUO Yang.

Human Rights in a Changing World Antonio Cassese
1990-01-01 11. What should we do?

Realizing Utopia Antonio Cassese 2012-03-08

Realizing Utopia is a collection of essays by a group of innovative international jurists. Its contributors reflect on some of the major legal problems facing the international community and analyse the inconsistencies or inadequacies of current law. They highlight the elements - even if minor, hidden, or emerging - that are likely to lead to future changes or improvements. Finally, they suggest how these elements can be developed, enhanced, and brought to fruition in the next two or three decades, with a view to achieving an improved architecture of world society or, at a minimum, to reshaping some major aspects of international dealings. Contributions to the book thus try to discern the potential, in the present legal construct of world society, that might one day be brought to light in a better world. As the impact of international law on national legal orders continues to increase, this volume takes stock of how far international law has come and how it should continue to develop. The work features an impressive list of contributors, including many of the leading authorities on international law and several judges of the International Court of Justice.

Diplomatic and Judicial Means of Dispute Settlement

Laurence Boisson de Chazournes 2012-10-12 The

volume offers an assessment of the interactions between diplomatic and judicial means of settling international disputes in selected areas: territorial questions, international criminal law, international trade law, investment arbitration and human rights. It includes contributions from some of the world's leading academics and practitioners.

Man's Inhumanity to Man Lal Chand Vohrah 2021-10-18

The Oxford Companion to International Criminal Justice 2009-01-22 The move to end impunity for human rights atrocities has seen the creation of international and hybrid tribunals and increased prosecutions in domestic courts. The Oxford Companion to International Criminal Justice is the first major reference work to provide a complete overview of this emerging field. Its nearly 1100 pages are divided into three sections. In the first part, 21 essays by leading thinkers offer a comprehensive survey of issues and debates surrounding international humanitarian law, international criminal law, and their enforcement. The second part is arranged alphabetically, containing 320 entries on doctrines, procedures, institutions and personalities. The final part contains over 400 case summaries on different trials from international and domestic courts dealing with war crimes, crimes against humanity, genocide, torture, and terrorism. With analysis and commentary on every aspect of international criminal justice, this Companion is

designed to be the first port of call for scholars and practitioners interested in current developments in international justice.

Five Masters of International Law Antonio Cassese
2011-03-15 This book consists of interviews with five distinguished international lawyers from the UK, USA, Uruguay and France, conducted by the editor, Antonio Cassese, between 1993 and 1995. Each interview is preceded by a brief 'intellectual portrait' of the interviewee. In his general introduction Cassese stresses that the interviews, all based on the same questionnaire, were intended to bring out not only the main ideas associated with each scholar in the fields of international law and international relations, but also his intellectual and philosophical background, his general outlook and his views of the prospects for the evolution of the international community. In his final essay, Cassese brings together the main threads of the interviews and points to the parallels and divergences appearing from them. This book offers a unique and important insight into the legal minds and outlook of a select group of prominent scholars of international law and legal institutions during the last years of the twentieth century.

International Criminal Law the late Antonio Cassese
2008-03-20 The second edition of *International Criminal Law* expounds the general principles governing international crimes as well as the fundamentals of both substantive and procedural

international criminal law. Professor Cassese brings the political and human contexts to the fore.

The Prosecutor and the Judge Heikelina Verriijn Stuart 2009 Earlier this year, the Praemium Erasmianum Foundation bestowed its annual award—the Erasmus Prize—on Benjamin Ferencz and Antonio Cassese, two pioneers in the field of international law. Ferencz, a leading American prosecutor, author, and lecturer, was present at the American war crimes trials in Dachau and was the chief prosecutor in the Einsatzgruppen trials in Nuremburg. Like Ferencz, Cassese was a key figure in the development of international criminal law, serving as the first president of the International Criminal Tribunal for the former Yugoslavia and president of the European Committee for the Prevention of Torture, and chairman of the UN Commission of Inquiry into Violation of Human Rights and Humanitarian Law in Darfur. Cassese is currently the president of the Special Court for Lebanon. In *The Prosecutor and the Judge*, Heikelina Verriijn Stuart and Marlise Simons provide in-depth, revealing interviews with these two advocates of international law. Supplementing the interviews are several key articles written by Ferencz and Cassese that highlight the two men's achievements and set the development of international law in context.

Law, War and Crime Gerry J. Simpson 2013-04-18
From events at Nuremberg and Tokyo after World War II, to the recent trials of Slobodan Milošević and

Saddam Hussein, war crimes trials are an increasingly pervasive feature of the aftermath of conflict. In his new book, *Law, War and Crime*, Gerry Simpson explores the meaning and effect of such trials, and places them in their broader political and cultural contexts. The book traces the development of the war crimes field from its origins in the outlawing of piracy to its contemporary manifestation in the establishment of the International Criminal Court in The Hague. Simpson argues that the field of war crimes is constituted by a number of tensions between, for example, politics and law, local justice and cosmopolitan reckoning, collective guilt and individual responsibility, and between the instinct that war, at worst, is an error and the conviction that war is a crime. Written in the wake of an extraordinary period in the life of the law, the book asks a number of critical questions. What does it mean to talk about war in the language of the criminal law? What are the consequences of seeking to criminalise the conduct of one's enemies? How did this relatively new phenomenon of putting on trial perpetrators of mass atrocity and defeated enemies come into existence? This book seeks to answer these important questions whilst shedding new light on the complex relationship between law, war and crime.

Change and Stability in International Law-Making

Antonio Cassese 1988-01-01

Outlines and Highlights for International Criminal Law
by Antonio Cassese, Isbn

Accompanys: 9780199203109 . International criminal law 2015

The Human Dimension of International Law Antonio Cassese 2008-06-19 This volume collects the most important papers of Antonio Cassese, one of the pre-eminent figures in international criminal justice. The papers offer the definitive statement of Cassese's thought, and a unique insight into some of the key developments in modern international law.

The New Terrain of International Law Karen J. Alter 2014-01-26 A compelling new look at the role of today's international courts In 1989, when the Cold War ended, there were six permanent international courts. Today there are more than two dozen that have collectively issued over thirty-seven thousand binding legal rulings. The New Terrain of International Law charts the developments and trends in the creation and role of international courts, and explains how the delegation of authority to international judicial institutions influences global and domestic politics. The New Terrain of International Law presents an in-depth look at the scope and powers of international courts

operating around the world. Focusing on dispute resolution, enforcement, administrative review, and constitutional review, Karen Alter argues that international courts alter politics by providing legal, symbolic, and leverage resources that shift the political balance in favor of domestic and international actors who prefer policies more consistent with international law objectives. International courts name violations of the law and perhaps specify remedies. Alter explains how this limited power--the power to speak the law--translates into political influence, and she considers eighteen case studies, showing how international courts change state behavior. The case studies, spanning issue areas and regions of the world, collectively elucidate the political factors that often intervene to limit whether or not international courts are invoked and whether international judges dare to demand significant changes in state practices.
