Comprehending as skillfully as treaty even more than further will manage to pay for each success. neighboring to, the declaration as competently as perception of this Mass Effect Morality Guide can be taken as without difficulty as picked to act.

The "Shepard" Will Guide Us Maricruz Gonzalez 2014 Mass Effect is a Science Fiction/Action Role Playing/Third Person Shooter video game series that takes place in the year 2183, in which the player assumes control of Commander Shepard. Players can choose to customize the character based on his/her gender, appearance, sexual orientation, background origin and occupation. The choices that show up in the game are also based on how the player wants their version of Shepard to interact with other characters and allows players some leeway to shape their own narrative. The series also discusses and acknowledges issues of race, gender, subjecthood and sovereignty, politics and sexual orientation within its narrative. This analysis focuses on the text of the series and its implications concerning hegemonic reinforcement and/or resistance in terms of race, gender, sexual orientation, politics, and warfare tactics. The main research questions are as follows: What are the possible textual outcomes and interpretations regarding gender, race, class, sexuality, intersectionality, and militarism? Do players have opportunities to address such issues in counter-hegemonic ways via their choices in the game? What are the biases in how the series is marketed, and how might the gaming industry become more diverse in creating options for players and in marketing their products? In order to answer these questions, I created four different versions of Commander Shepard and changed their morality codes, appearances, sexual orientations and gender with each play-through of the narrative and used textual and observational analysis via feminist and other critical theory. The thesis's findings suggest that for the most part, the series does allow players to take opportunities to resist hegemony and create their own narratives. However, not all options are available to them and there are still many biases in video game marketing that favor the white, 14-35, heterosexual, male demographic. Also, there are many textual outcomes concerning race, sexuality, gender, class, intersectionality and militarism that privilege hegemonic ideologies but can sometimes also be counter-hegemonic, depending on the morality code that a player chooses.

Revelation Drew Karpysyn 2007 In a fictional prequel to the award-winning video game, it is the year 2183, and a mysterious race of machines returns to the galaxy with the intent of harvesting all organic life. Original. (Tie-in to Mass Effect, the new RPG video game from BioWare) (Science Fiction)

Follow Your Conscience Peter Cajka 2021-05-05 Introduction -- The conscience problem and Catholic doctrine -- Political origins : totalitarianism, world war, and mass conscription -- The State's paperwork and the Catholic Peace Fellowship -- Sex, conscience and the American Catholic Church 1968 -- Psychology and the self -- The conscience lobby -- Beyond the Catholic Church.

Teaching Activities Manual for the Catholic Faith Handbook for Youth Steven McGlaun 2004 This teaching activities manual works with both the first and second edition of The Catholic Faith Handbook for Youth. The Teaching Activities Manual for "The Catholic Faith Handbook for Youth" is designed not as a curriculum but as a collection of activities to help teachers make their current curriculum more meaningful and effective. Each chapter coincides with a chapter in The Catholic Faith Handbook for Youth and includes several activities that address the chapter's themes. Themes include: The Creed, Liturgy and Sacraments, Christian Morality, Christian Prayer. Two appendices help teachers use the The Catholic Faith Handbook for Youth with their class. "Additional Resources" lists books, movies, and songs to use in class. "Prayer Experiences" is a collection of ten prayer services on themes present in the The Catholic Faith Handbook for Youth. The prayer services require minimal supplies and are

designed to take 10 to 20 minutes.

The Church and the Moral World Augustus J. Thébaud 1881

The Modern Review 1913

The Charge of the Light Brigade and Other Poems Alfred Tennyson 1992-09-21 Treasury of verse by the great Victorian poet includes the famous long narrative poem, Enoch Arden, plus "The Lady of Shalott," "The Charge of the Light Brigade," "Break, break, break," "Flower in the crannied Wall" and more. Also included are excerpts from three longer works: The Princess, "Maud" and "The Brook."

Film and Morality Philip Gillett 2013-02-14 Employing a thematic approach and drawing on disciplines ranging from neurobiology to philosophy, Film and Morality examines how morality is presented in films and how films serve as a source of moral values. While the role of censorship in upholding moral standards has been considered comprehensively, the presence of moral dilemmas in films has not attracted the same level of interest. Film-makers may address moral concerns explicitly, but moral dilemmas can serve as plot devices, creating dramatic tension by providing pivotal moments when characters are called upon to make life-changing decisions. Drawing on a range of well-known and neglected films mainly from Britain and America, this book provides numerous examples of how film-makers make use of morality and how audiences are invited to explore moral issues by following characters who live with the consequences of their choices. Film and Morality introduces philosophical debates on such topics as free will, conscience and the place of moral codes in everyday life, showing the relevance of film to these issues. The book presents a distinct approach to how films might be analysed.

Moral Politics in the Philippines Wataru Kusaka 2017-02-17 "The people" famously ousted Ferdinand Marcos from power in the Philippines in 1986. After democratization, though, a fault line appeared that split the people into citizens and the masses. The former were members of the middle class who engaged in civic action against the restored elite-dominated democracy, and viewed themselves as moral citizens in contrast with the masses, who were poor, engaged in illicit activities and backed flawed leaders. The masses supported emerging populist counter-elites who promised to combat inequality, and saw themselves as morally upright in contrast to the arrogant and oppressive actions of the wealthy in arrogating resources to themselves. In 2001, the middle class toppled the populist president Joseph Estrada through an extra-constitutional movement that the masses denounced as illegitimate. Fearing a populist uprising, the middle class supported action against informal settlements and street vendors, and violent clashes erupted between state forces and the poor. Although solidarity of the people re-emerged in opposition to the corrupt presidency of Gloria Macapagal Arroyo and propelled Benigno Aquino III to victory in 2010, inequality and elite rule continue to bedevil Philippine society. Each group considers the other as a threat to democracy, and the prevailing moral antagonism makes it difficult to overcome structural causes of inequality.

Mass Effect 1 Legendary Edition - Strategy Guide GamerGuides.com 2021-06-14 As Commander Shepard of the SSV Normandy, take your elite recon squad across a galaxy in turmoil in a desperate race to stop the return of an enemy without mercy. The Second Media Age Mark Poster 2018-03-08 This book examines the implications of new communication technologies in the light of the most recent work in social and cultural theory and argues that new developments in electronic media, such as the Internet and Virtual Reality, justify the designation of a "second media age".

Integrity and Agreement Lanse Minkler 2008-07-23 "Two impressive features of this book are its clarity of purpose and the breadth of disciplinary resources to which it appeals." ---Geoffrey Brennan, Professor of Economics, Australian National University "Facing massive evidence that people do not act generally as self-regarding payoff maximizers, economists have become increasingly interested in issues of cooperation, altruism, identity, and morality. Lanse Minkler's contribution is particularly important because

of his powerful argument that the evidence of cooperation cannot be explained adequately by a more complicated preference function. A disposition for honesty is not simply a matter of preference---it is an issue of personal integrity, identity, and commitment. This has major implications. In particular we have to reconstruct the theory of the firm from first principles. No economist committed to the pursuit of truth should ignore this volume." ---Geoffrey Hodgson, Research Professor in Business Studies, University of Hertfordshire, United Kingdom, and Editor in Chief of the Journal of Institutional Economics "This is an interesting account of the role of integrity---preference-integrity and commitment-integrity---on economic behavior. While drawing knowledge from traditional subfields of economics, it also includes insights gleaned from psychology and philosophy, showing their effects in varied areas such as political behavior, the employment relation, religion, and human rights. In this exciting volume Lanse Minkler does an excellent job of incorporating various newer concepts of fairness and integrity into economic analysis." ---Ernst Fehr, Professor and Head of the Chair of Microeconomics and Experimental Economic Research and Director of the Institute for Empirical Research in Economics, University of Zurich Social scientists who treat humans as rational beings driven exclusively by self-interest ignore a key factor shaping human behavior: the influence of moral principles. Starting with the elementary principle "lying is wrong," economic theorist Lanse Minkler examines the ways in which a sense of morality guides real-life decision making. Whether one feels committed to specific or general moral principles, Minkler explains, integrity demands consistently acting on that commitment. Because truthfulness is the most basic moral principle, integrity means honesty. And honesty extends beyond truth-telling. It requires good faith when entering an agreement and then standing by one's word. From this premise, Minkler explores the implications of integrity for contracts between buyers and sellers and understandings between employers and employees. He also finds a role for integrity in an individual's religious vows, an elected official's accountability to constituents, and a community's obligation to human rights. Integrity and Agreement reintroduces morality as a factor for economists, sociologists, psychologists, and political scientists to consider in their efforts to comprehend human behavior. Lanse Minkler is Associate Professor of Economics at the University of Connecticut.

Ethics for A-Level Mark Dimmock 2017-07-31 What does pleasure have to do with morality? What role, if any, should intuition have in the formation of moral theory? If something is 'simulated', can it be immoral? This accessible and wide-ranging textbook explores these questions and many more. Key ideas in the fields of normative ethics, metaethics and applied ethics are explained rigorously and systematically, with a vivid writing style that enlivens the topics with energy and wit. Individual theories are discussed in detail in the first part of the book, before these positions are applied to a wide range of contemporary situations including business ethics, sexual ethics, and the acceptability of eating animals. A wealth of real-life examples, set out with depth and care, illuminate the complexities of different ethical approaches while conveying their modern-day relevance. This concise and highly engaging resource is tailored to the Ethics components of AQA Philosophy and OCR Religious Studies, with a clear and practical layout that includes end-of-chapter summaries, key terms, and common mistakes to avoid. It should also be of practical use for those teaching Philosophy as part of the International Baccalaureate. Ethics for A-Level is of particular value to students and teachers, but Fisher and Dimmock's precise and scholarly approach will appeal to anyone seeking a rigorous and lively introduction to the challenging subject of ethics. Tailored to the Ethics components of AQA Philosophy and OCR Religious Studies.

Catholic Morality Ronald J. Wilkins 1989

Harvard Law Review 1959

[media.faith.culture: Parents 101](#) Brett Ullman 2011-09-19 Growing up, we didn't have the Internet, our friends didn't cut themselves and text messaging wasn't even on the radar. Today's young people are bombarded by media of all kinds, and have instant access to any subject and any topic of their choosing. Their media-saturated lives are inescapably inundated by chat rooms, movies, instant messaging and their ipods. How do we help guide our children to live Godly lives amidst this kind of cultural climate? Brett Ullman discusses, from a parent's perspective, sensitive topics affecting today's young people including cutting, suicide, substance abuse, sex and violence. Bringing hope and an awareness to today's parents, Brett sheds light on how with increased knowledge of youth trends, adults can be more discerning in their parenting strategies and better able to anticipate the needs of their children as they navigate the often challenging waters of adolescence.

Antigone Sophocles 1990-02-01 Based on the conviction that only translators who write poetry themselves can properly recreate the celebrated and timeless tragedies of Aeschylus, Sophocles, and

Euripides, the Greek Tragedy in New Translations series offers new translations that go beyond the literal meaning of the Greek in order to evoke the poetry of the originals. The series seeks to recover the entire extant corpus of Greek tragedy, quite as though the ancient tragedians wrote in the English of our own time. Under the editorship of Peter Burian and Alan Shapiro, each of these volumes includes a critical introduction, commentary on the text, full stage directions, and a glossary of the mythical and geographical references in the plays. This finely-tuned translation of Sophocles' *Antigone* by Richard Emil Braun, both a distinguished poet and a professional scholar-critic, offers, in lean, sinewy verse and lyrics of unusual intensity, an interpretation informed by exemplary scholarship and critical insight. Braun presents an *Antigone* not marred by excessive sentimentality or pietistic attitudes. His translation underscores the extraordinary structural symmetry and beauty of Sophocles' design by focusing on the balanced and harmonious view of tragically opposed wills that makes the play so moving. Unlike the traditionally gentle and pious protagonist opposed to a brutal and villainous Creon, Braun's *Antigone* emerges as a true Sophoclean heroine--with all the harshness and even hubris, as well as pathos and beauty, that Sophoclean heroism requires. Braun also reveals a Creon as stubbornly "principled" as *Antigone*, instead of simply the arrogant tyrant of conventional interpretations.

Designing Games for Ethics: Models, Techniques and Frameworks Schrier, Karen 2010-12-31 "This book brings together the diverse and growing community of voices on ethics in gaming and begins to define the field, identify its primary challenges and questions, and establish the current state of the discipline"--Provided by publisher.

Mass Effect: The Complete Comics Mac Walters 2020-11-03 The champions of BioWare's award winning series embark on thrilling interstellar expeditions through alien war and existential crisis, struggling for peace and fighting for the right to survive. *Mass Effect*'s vibrant world is teeming with conflict, and always on the edge of tipping into despair--but there are some who still struggle to maintain order in the chaos and secure the future of the galaxy. Join Liara as she teams up with the Drell Feron to recover the body of Commander Shepard from the Shadow Broker, uncover the origins of the Illusive Man in an epic tale of betrayal and discovery, and witness Aria defend the space station Omega from Cerberus forces, as well as the internal conflicts at Cerberus and the lives of the agents who serve it. Also included in this volume are collected stories of characters you love like Garrus, Tali'Zorah, and Wrex, and the series *Discovery* which follows the Turian soldier Tiran Kandros. This book compiles all of the *Mass Effect* comic book series in one affordable, accessible, and comprehensive format--a must buy for fans of the *Mass Effect* universe and BioWare. Collects *Mass Effect: Redemption* #1-4, *Mass Effect: Evolution* #1-4, *Mass Effect: Invasion* #1-4, *Mass Effect: Homeworlds* #1-4, *Mass Effect: Foundation* #1-13, and *Mass Effect: Discovery* #1-4.

The Literary Guide and Rationalist Review 1938

Mass Effect: Discovery Bioware 2018-01-30 *Mass Effect: Andromeda*, one of the year's most hotly anticipated video games, will be released in Spring 2017. Dark Horse is pleased to be releasing *Mass Effect: Discovery*, the canonical comic continuation! A young Turian military recruit goes undercover in order to infiltrate the mysterious *Andromeda Initiative*--and ultimately retrieve a scientist who's made a potentially devastating discovery. Tying in to the highly anticipated release of *Mass Effect: Andromeda*, writer Jeremy Barlow and artist Gabriel Guzman team up to create the next exciting chapter of the *Mass Effect* comics series!

Congressional Record United States. Congress 1969

Health Care Ethics Benedict M. Ashley 1982 Modern medicine has unprecedented power to heal human beings of physical and mental disease, to keep them health, and even to improve the human race. This power can be used to humanize life or to dehumanize and destroy it. It can be used justly to benefit all, or it can be used to benefit the few at the expense of the many. How to use such power is a question of values and, therefore, of individual and group decisions which are not merely technical but ethical. Two reasons have induced us to add to the already extensive literature on medical-ethical and bioethical topics. First, too much of this literature focuses on a few controversial but sometimes minor topics, while neglecting the broader and major issues affecting human health and the health care professions. Second, we want to assist Christian, and especially Catholic, health care professionals and health care facilities faced with the difficult and often puzzling responsibility of giving witness to a long tradition of humanistic health care, while working with other professionals and government agencies committed to diverse value systems. -from Introduction.

The Global Guide to Animal Protection Andrew Linzey 2013-06-01 Raising awareness of human

indifference and cruelty toward animals, *The Global Guide to Animal Protection* includes more than 180 introductory articles that survey the extent of worldwide human exploitation of animals from a variety of perspectives. In addition to entries on often disturbing examples of human cruelty toward animals, the book provides inspiring accounts of attempts by courageous individuals—including Jane Goodall, Shirley McGreal, Birute Mary Galdikas, Richard D. Ryder, and Roger Fouts—to challenge and change exploitative practices. As concern for animals and their welfare grows, this volume will be an indispensable aid to general readers, activists, scholars, and students interested in developing a keener awareness of cruelty to animals and considering avenues for reform. Also included is a special foreword by Archbishop Desmond Tutu, urging readers to seek justice and protection for all creatures, humans and animals alike.

An Intelligent Person's Guide to Philosophy Roger Scruton 1998 An introduction to the subject explores the philosophies of truth, subject and object, persons, time, God, morality, sex, music, and history
The Gutenberg Galaxy Marshall McLuhan 2017-06-22 The Gutenberg Galaxy catapulted Marshall McLuhan to fame as a media theorist and, in time, a new media prognosticator. Fifty years after its initial publication, this landmark text is more significant than ever before. Readers will be amazed by McLuhan's prescience, unmatched by anyone since, predicting as he did the dramatic technological innovations that have fundamentally changed how we communicate. The Gutenberg Galaxy foresaw the networked, compressed 'global village' that would emerge in the late-twentieth and twenty-first centuries — despite having been written when black-and-white television was ubiquitous. This new edition of *The Gutenberg Galaxy* celebrates both the centennial of McLuhan's birth and the fifty-year anniversary of the book's publication. A new interior design updates *The Gutenberg Galaxy* for twenty-first-century readers, while honouring the innovative, avant-garde spirit of the original. This edition also includes new introductory essays that illuminate McLuhan's lasting effect on a variety of scholarly fields and popular culture. A must-read for those who inhabit today's global village, *The Gutenberg Galaxy* is an indispensable road map for our evolving communication landscape.

Statebuilding Timothy Sisk 2014-01-21 After civil wars end, what can sustain peace in the long-term? In particular, how can outsiders facilitate durable conflict-managing institutions through statebuilding - a process that historically has been the outcome of bloody struggles to establish the state's authority over warlords, traditional authorities, and lawless territories? In this book, Timothy Sisk explores international efforts to help the world's most fragile post-civil war countries today build viable states that can provide for security and deliver the basic services essential for development. Tracing the historical roots of statebuilding to the present day, he demonstrates how the United Nations, leading powers, and well-meaning donors have engaged in statebuilding as a strategic approach to peacebuilding after war. Their efforts are informed by three key objectives: to enhance security by preventing war recurrence and fostering community and human security; to promote development through state provision of essential services such as water, sanitation, and education; to enhance human rights and democracy, reflecting the liberal international order that reaffirms the principles of democracy and human rights, . Improving governance, alongside the state's ability to integrate social differences and manage conflicts over resources, identity, and national priorities, is essential for long-term peace. Whether the global statebuilding enterprise can succeed in creating a world of peaceful, well-governed, development-focused states is unclear. But the book concludes with a road map toward a better global regime to enable peacebuilding and development-oriented statebuilding into the 21st century.

The Moral Landscape Sam Harris 2011-09-13 Calls for an end to religion's role in dictating morality, demonstrating how the scientific community's understandings about the human brain may enable the establishment of secular codes of behavior.

Unconscionable Crimes Paul C. Morrow 2020-09-22 The first general theory of the influence of norms—moral, legal and social—on genocide and mass atrocity. How can we explain—and prevent—such large-scale atrocities as the Holocaust? In *Unconscionable Crimes*, Paul Morrow presents the first general theory of the influence of norms on genocide and mass atrocity. After offering a clear overview of norms and norm transformation, rooted in recent work in moral and political philosophy, Morrow examines numerous twentieth-century cases of mass atrocity, drawing on documentary and testimonial sources to illustrate the influence of norms before, during, and after such crimes. Morrow considers such key explanatory pathways as the erosion of moral norms through brutalization and demoralization, the exploitation of legal norms to legitimize persecution and deny violence, and the enduring influence of gender-based social norms on targets and perpetrators of atrocities. Key

constraints on atrocities would include the revision of moral norms that have traditionally guided the conduct of soldiers and humanitarian aid workers, the strengthening of legal prohibitions on large-scale crimes through statutory and institutional reform, and the elimination of social norms prescribing silence about personal experience of atrocities. Throughout, Morrow emphasizes the differences among moral, legal, and social norms, which stand in different relations to real or perceived social practices, and exhibit different patterns of creation, modification, and elimination. Ultimately, he argues, norms of each kind are integral to the explanation and the prevention of mass atrocities.

Ethics in the Confucian Tradition P. J. Ivanhoe 2002-01-01 This volume serves both as an introduction to the thought of Mengzi (Mencius) and Wang Yangming and as a comparison of their views. By examining issues held in common by both thinkers, Ivanhoe illustrates how the Confucian tradition was both continued and transformed by Wang Yangming, and shows the extent to which he was influenced by Buddhism. Topics explored are: the nature of morality; human nature; the nature and origin of wickedness; self cultivation; and sagehood. In addition to revised versions of each of these original chapters, Ivanhoe includes a new chapter on Kongzi's (Confucius') view of the Way.

The Spectator 1894 A weekly review of politics, literature, theology, and art.

Mass Effect: Deception William C. Dietz 2012-02-02 This novel continues the all-new, completely original story begun in the first three MASS EFFECT stories. The heroine, Gillian, was once the subject of horrifying scientific experiments, but now, after her rescue, she is beginning to master her amazing powers. But when she falls under the sway of a radical group who believes their powers make them superior to ordinary humans, she finds herself faced with a choice between her destiny . . . and her humanity.

Nicomachean Ethics Aristotle 2021-11-13 Nicomachean Ethics Aristotle - The Nicomachean Ethics is one of Aristotle's most widely read and influential works. Ideas central to ethics—that happiness is the end of human endeavor, that moral virtue is formed through action and habituation, and that good action requires prudence—found their most powerful proponent in the person medieval scholars simply called "the Philosopher." Drawing on their intimate knowledge of Aristotle's thought, Robert C. Bartlett and Susan D. Collins have produced here an English-language translation of the Ethics that is as remarkably faithful to the original as it is graceful in its rendering. Aristotle is well known for the precision with which he chooses his words, and in this elegant translation his work has found its ideal match. Bartlett and Collins provide copious notes and a glossary providing context and further explanation for students, as well as an introduction and a substantial interpretive essay that sketch central arguments of the work and the seminal place of Aristotle's Ethics in his political philosophy as a whole. The Nicomachean Ethics has engaged the serious interest of readers across centuries and civilizations—of peoples ancient, medieval, and modern; pagan, Christian, Muslim, and Jewish—and this new edition will take its place as the standard English-language translation.

Liquid Love Zygmunt Bauman 2013-05-03 This book is about the central figure of our contemporary, 'liquid modern' times – the man or woman with no bonds, and particularly with none of the fixed or durable bonds that would allow the effort of self-definition and self-assertion to come to a rest. Having no permanent bonds, the denizen of our liquid modern society must tie whatever bonds they can to engage with others, using their own wits, skill and dedication. But none of these bonds are guaranteed to last. Moreover, they must be tied loosely so that they can be untied again, quickly and as effortlessly as possible, when circumstances change – as they surely will in our liquid modern society, over and over again. The uncanny frailty of human bonds, the feeling of insecurity that frailty inspires, and the conflicting desires to tighten the bonds yet keep them loose, are the principal themes of this important new book by Zygmunt Bauman, one of the most original and influential social thinkers of our time. It will be of great interest to students and scholars in sociology and in the social sciences and humanities generally, and it will appeal to anyone interested in the changing nature of human relationships.
