Evan Penny Evan Penny 2011 Evan Penny makes the kind of sculpture that is so realistic,

so detailed and so obviously a display of skill that it literally stops people in their tracks. But this alone isn't why the artist's work grabs a viewer, holds onto their gaze and then begins to choreograph their movements around the solid objects he has planted in their space. Penny's standing nude figures and portrait heads invite you to stare, to examine every wrinkle, bump, fleshy imperfection and intimate crevasse. Penny's lifelike figures, modelled with great craftsmanship out of aluminium, silicone, epoxy resin and pigments, have a physical, highly sensuous presence. Nevertheless, they seem artificial. The work reflects on how the human image is presented by modern technologies such as photography, electronic image editing, offset printing and 3D scanning. English, German and Italian text.

Reminiscences of Rudolf Steiner Andrei Bely 1987-06 Both because it is the gift of the Russian people to be able to describe another's soul-configuration in a particularly pictorial and concrete way, and because each of these writers knew Rudolf Steiner and saw him frequently, their impressions are especially living and vivid. In these eminently readable reminiscences, Andrei Belyi, the foremost symbolist poet of Russia in the twentieth century, Assya Turgenieff, a niece of novelist Ivan Turgenieff, and Margarita Voloschin, wife of a Russian poet and a well-known painter in her own right, recount their personal observations and experiences with Rudolf Steiner. Beautifully illustrated by photographs as well as drawings and paintings by Turgenieff and Voloschin, this collection offers striking and surprising impressions of Rudolf Steiner.

On Ugliness Umberto Eco 2011-10-18 In the mold of his acclaimed History of Beauty, renowned cultural critic Umberto Eco's On Ugliness is an exploration of the monstrous and the repellent in visual culture and the arts. What is the voyeuristic impulse behind our attraction to the gruesome and the horrible? Where does the magnetic appeal of the sordid and the scandalous come from? Is ugliness also in the eye of the beholder? Eco's

encyclopedic knowledge and captivating storytelling skills combine in this ingenious study of the Ugly, revealing that what we often shield ourselves from and shun in everyday life is what we're most attracted to subliminally. Topics range from Milton's Satan to Goethe's Mephistopheles; from witchcraft and medieval torture tactics to martyrs, hermits, and penitents; from lunar births and disemboweled corpses to mythic monsters and sideshow freaks; and from Decadentism and picturesque ugliness to the tacky, kitsch, and camp, and the aesthetics of excess and vice. With abundant examples of painting and sculpture ranging from ancient Greek amphorae to Bosch, Brueghel, and Goya among others, and with quotations from the most celebrated writers and philosophers of each age, this provocative discussion explores in-depth the concepts of evil, depravity, and darkness in art and literature.

Censorship and Literature in Fascist Italy Guido Bonsaver 2007 The history of totalitarian states bears witness to the fact that literature and print media can be manipulated and made into vehicles of mass deception. *Censorship and Literature in Fascist Italy* is the first comprehensive account of how the Fascists attempted to control Italy's literary production. Guido Bonsaver looks at how the country's major publishing houses and individual authors responded to the new cultural directives imposed by the Fascists. Throughout his study, Bonsaver uses rare and previously unexamined materials to shed light on important episodes in Italy's literary history, such as relationships between the regime and particular publishers, as well as individual cases involving renowned writers like Moravia, Da Verona, and Vittorini. *Censorship and Literature in Fascist Italy* charts the development of Fascist censorship laws and practices, including the creation of the Ministry of Popular Culture and the anti-Semitic crack-down of the late 1930s. Examining the breadth and scope of censorship in Fascist Italy, from Mussolini's role as 'prime censor' to the specific experiences of female writers, this is a fascinating look at the vulnerability of culture under a dictatorship.

Raffaello Borghini's Il Riposo Raffaello Borghini 2007 Raffaello Borghini's *Il Riposo* (1584) is the most widely known Florentine document on the subject of the Counter-Reformation content of religious paintings. Despite its reputation as an art-historical text, this is the first English-language translation of *Il Riposo* to be published. A distillation of the art gossip that was a feature of the Medici Grand Ducal court, Borghini's treatise puts forth simple criteria for judging the quality of a work of art. Published sixteen years after the second edition of Giorgio Vasari's *Vite*, the text that set the standard for art-historical writing during the period, *Il Riposo* focuses on important issues that Vasari avoided, ignored, or was oblivious to. Picking up where Vasari left off, Borghini deals with artists who came after Michaelangelo and provides more comprehensive descriptions of artists who Vasari only touched upon such as Tintoretto, Veronese, Barocci, and the artists of Francesco I's Studiolo. This text is also invaluable as a description of the mid-sixteenth century reaction against the style of the 'maniera,' which stressed the representation of self-consciously convoluted figures in complicated works of art. The first art treatise specifically directed toward non-practitioners, *Il Riposo* gives unique insight into the early stages of art history as a discipline, late Renaissance art and theory, and the Counter-Reformation in Italy.

Constructive Anatomy George B. Bridgman 2014-05-20 George Brant Bridgman (1865–1943) was a Canadian-American painter, writer, and teacher in the fields of anatomy and figure drawing. Bridgman taught anatomy for artists at the Art Students League of New York for some 45 years. Constructive Anatomy: Illustrated by George B. Bridgman. Excellent book of anatomical drawing instruction. Ideal for beginning to intermediate artists, begins with instruction on drawing hands and works its way through the human body giving detailed instruction on how to draw realistic human figures. The drawings that are presented here show the conceptions that have proved simplest and most effective in constructing the human figure. The eye in drawing must follow a line or a plane or a mass. In the process of drawing, this may become a moving line, or a moving plane, or a moving mass. The line, in actual construction, must come first; but as mental construction must precede physical, so the concept of mass must come first, that of plane second, that of line last. Masses of about the same size or proportion are conceived not as masses, but as one mass; those of different proportions, in respect to their movement, are conceived as wedging into each other, or as morticed or interlocking.

A Classical Tour Through Italy and Sicily Sir Richard Colt Hoare 1819 After the death of his wife, antiquarian Sir Richard Colt Hoare (1758-1838) left his only child in England and embarked on a series of journeys through continental Europe in pursuit of 'novelty, pleasure and information' in order to assuage his grief. At the end of the 1780s he deliberately diverged from the more conventional tourist trail in favour of a route through the then less-

documented areas of Italy and down into Sicily, using classical authors as his guides. This work, first published in 1819, draws heavily on his daily journal entries to elucidate areas and points of interest that he felt had been overlooked in previous guides to Italy. Quotations from Horace, Tacitus and Pliny pertaining to ancient sites and practices are frequently included in Hoare's narrative, and he meticulously recreates the journey from Rome to Brundisium described by Horace in his Satires.

Michelangelo e il Novecento Pietro Ruschi 2014 Il volume, pubblicato nell'ambito delle celebrazioni per il 450° anniversario della morte di Michelangelo (Caprese Michelangelo, 1475 - Roma, 1564) offre un interessante percorso per comprendere l'influenza di Michelangelo nelle arti visive, nell'architettura e nel design nel corso del Novecento. Attraverso numerosi saggi critici, viene illustrato il progressivo abbandono della retorica fiorita attorno all'artista fino agli anni quaranta, improntata a un eroico titanismo, sottolineando come il linguaggio di Michelangelo abbia assunto man mano un significato esistenziale, offrendosi anche come esempio formale per la politica della ricostruzione, fino a riacquistare lo status di un vero e proprio mito nazionale a ridosso dei festeggiamenti per il centenario dell'unificazione italiana. In questo contesto, il volume da conto delle celebrazioni che si svolsero nel 1964 e nel 1975 in occasione dei centenari michelangioleschi, e i dei restauri che portarono al rifiorire di Casa Buonarroti. Accanto a una scelta di disegni di Michelangelo, è presentata una ricca selezione di opere di artisti del Novecento e contemporanei. Completa il volume una bibliografia aggiornata.

Early Rock Art of the American West Ekkehart Malotki 2018-06-17 The earliest rock art in the Americas as elsewhere is geometric or abstract. Until Early Rock Art in the American West, however, no book-length study has been devoted to the deep antiquity and amazing range of geometrics and the fascinating questions that arise from their ubiquity and variety. Why did they precede representational marks? What is known about their origins and functions? Why and how did humans begin to make marks, and what does this practice tell us about the early human mind? With some two hundred striking color images and discussions of chronology, dating, sites, and styles, this pioneering investigation of abstract geometrics on stone (as well as bone, ivory, and shell) explores its wide-ranging subject from the perspectives of ethnology, evolutionary biology, cognitive archaeology, and the psychology of artmaking. The authors' unique approach instills a greater respect for a largely unknown and underappreciated form of paleoart, suggesting that before humans

became•Homo symbolicus•or even•Homo religiosus, they were mark-makers•Homo aestheticus.
